

SLAFES XXIV MORELIA

XXIV Latin American Symposium on Solid State Physics

Topics

- Semiconductors
- Magnetism
- Spintronics
- Conventional and non-conventional superconductors
- Theoretical models and numerical simulations of complex systems
- Low-dimensional systems and nanophysics
- Surfaces, interfaces and thin films
- New materials
- Materials preparation and characterization

November 7-11, 2022

Conference Center (CSAM)
UNAM, Campus Morelia, Mexico.

Organizing Committee

- Oracio Navarro (Chairman)
- Jesus Arriaga (Co-chairman)
- Miguel Cruz-Irisson (Co-chairman)
